Burt-Watts Announces Growth, Expansion

General contractor experiences record growth, expands team

Austin, TX, August 15 – Burt-Watts Industries, Inc., a leading Austin-based commercial general contracting firm, is expanding its staff to accommodate a record year of nearly 95 percent revenue growth in 2007.

“Our growth is a result of our team’s focus and momentum in the community. We wanted to shake up the industry and raise the bar; our growth reflects this commitment. It’s been an exciting year,” said Tommy Burt, president, Burt-Watts.

To accommodate Burt-Watts’ growth, the firm has plans underway to add four additional construction professionals to its head count. Recently, Burt-Watts added a new project manager, Joe O’Jibway. He will lead a variety of projects for the firm, primarily focusing on tenant finish-out and retail environments. With over 20 years of industry experience, O’Jibway joins the firm from Brath Inc.

Burt-Watts specializes in tenant finish-out, ground-up developments, design-build services, retail and healthcare projects. The company has completed projects with leading architects, developers and companies throughout the Greater Austin area. Clients of the firm include Advanced Micro Devices, Seton Family of Hospitals and Goodwill.

Founded in 2002, Burt-Watts was ranked by the *Austin Business Journal* as one of the region’s fastest growing companies in 2007.
